130/125	85 - 300 mm	Cylindrical, stackable, bottom necking, ball-ears and handle on request.
140	90 - 300 mm	Cylindrical, ball-ears and handle on request.
160	104 - 300 mm	Cylindrical, ball-ears and handle on request.
163	100 - 300 mm	Cylindrical.
190	150 - 300 mm	Cylindrical, ball-ears and handle on request.
190/180	150 - 300 mm	Conical, stackable, ball-ears and handle on request.
230/217	165 - 348 mm	Conical, stackable, special beading for hot-filling on request - vacuum-pails and vacuum-ends.
230/217	165 - 348 mm	Conical, open-end-flanged can, stackable (vegetable oil).
235/224	165 - 348 mm	Conical, stackable.

- Special sizes on request.
- Side seam WIMA welded, inside powder coated, outside protected with varnish.
- Special protective coating inside depending on the product.
- Inside and outside coating Bisphenol A (BPA) non intend-system (Nehring-certificated) on request.
- Lid fixation optional by clamping ring, safety-ring (-strip) or ball-ears with integrated overlapping clamps.
- Lids on request with food-licensed PVC-compound in the end-flange.
- All available inside coatings according to the food-regulations of the Federal Republic of Germany, especially to the food consumer and article law (LFBG).
- 100 % fully automatic piece by piece leak test in all sizes.
- Conical types stackable to prevent freight- and storing costs.
